WEEK 9 OVERVIEW

Your guest lecturer for this week will be Leigh Blackall
Lecture: Free Software
Workshop: More Blogging: uploading images, uploading video.

Self-Directed: Write a post to your blog about FREE SOFTWARE as you understand it and list at least 5 software programmes and their functions. Find a video that discusses, showcases, or demonstrates the use of FREE SOFTWARE and upload this to your blog, with a short introduction.
Upload to your blog a copy of all the images you have saved so far.

This week's tasks should all be done in your blog which will act as your workbook for this week.

You may also like to use the space below to record some of the tasks before you post them to your blog.

What is FREE SOFTWARE?

| |
| |

5 x software programmes that are free and a quick description of each:

Where did you find a video about Free Software? _____

Why did you choose it?_____

Explain how you uploaded it to you blog – (e.g. what are the steps?)
