Information and Communication Technology Center, South Campus

COURSE: INTRODUCTION TO INFORMATION TECHNOLOGY

CODE: GPD 113 | DURATION: 1hr 30mins

MID-SEMESTER PRACTICAL ASSESSMENT

QUESTION

Using an appropriate application, design a one-page three columns news magazine for your community.

- 1) Your heading should show Name of the magazine, Editor, Price, Logo with a motto inscribed in it and Edition.
- 2) Column one should report on Developmental Projects in your community.
- 3) Column two should report on the state of Gender Issues relating to women and children in the community.
- 4) In the third column, report on the recent Immunization Exercise carried out by the community clinic in collaboration with the Ministry of Health. The following results were obtained during the exercise.
 - ✓ 5 polio cases were identified, 3 were treated and 2 referred.
 - ✓ 25 measles cases were identified, 18 were treated and 7 referred.
 - ✓ 36 TB cases were identified, 20 were treated and 16 referred.
 - ✓ 6 small pox cases were identified, but all were referred.

Using a four column table with the following headings *Diseases, No. of Cases Treated, and Referrals, Totals* translate the above data into a table and determine the total number of cases reported, treated and referred.

Additional Skills Required

- Using a landscape orientation with the following measurement: top and bottom size margins 0.5 inches, and left and right margins 0.8 inches.
- Use pictures to amplify your story.
- Use WordArt, page borders, background colour, symbols, appropriate font and font size and any other relevant feature to enhance your work.

NB: Extra marks will be awarded for good formatting, aesthetics and layout design.
