

Cascadia Community College

Cultural Anthropology – Sample Syllabus
Traditional/Hybrid Class
ANTH&206 5 credits

Course Developer: Tori Saneda

Instructor:

Office Hours:

Office Phone:

E-mail:

Contacting the Instructor: Email is the preferred mode of communication. The best way to do this is through ANGEL; however, sending mail directly to my school account is acceptable. You can call and leave a voicemail; however, I check my voicemail infrequently.

How I respond to Students: Monday through Friday, I check my email frequently throughout the day, so you should receive a relatively quick response; I generally try to respond within 24 hours on a weekday. Should you send an email on the weekend, you will probably not receive a response until Monday. If you do not hear back from me within 24 hours, please send a follow-up email as there may have been a technical problem.

Class Emails: Copies of emails sent to the entire class will be copied in the Announcements on ANGEL.

My Expectations of Students' Response: Each student should have an alternate email address in ANGEL. Go to Preferences > Personal Information to add an email address. This will ensure that you get email both in your ANGEL inbox and your preferred email account. I expect students to check their email daily during the week and announcements at minimum every other day, although daily is preferred. If I have a problem with an assignment, I will email you, so checking your email in the week after an assignment is due is critical.

Prerequisites: *Include your institution's prerequisite.*

Course Description: Students examine the anthropological perspective of human culture, including such institutions as kinship, politics, and religion, and evaluate the interrelationship between culture, environment and biology. Students explore the effects of globalization on culture while developing

critical thinking skills through the application of essential anthropological approaches, theories, and methods.

This course is divided into 3 units:

Culture & Cultural Anthropology: In the first unit, the anthropological concept of culture is explored, including overarching themes such as cultural relativism, holism, ethnocentrism, identity, and language. Cultural anthropology theories and methodologies are also introduced.

Social Institutions: In the second unit, students examine from a relativistic standpoint, the various manifestations of social institutions such as economic systems, including subsistence strategies, political organization, marriage, family, kinship, healthcare, and religion.

Globalization: In the third unit, students will research, critique and assess the impact of globalization on culture, particularly the effects on indigenous (non-Westernized, non-industrial, disenfranchised) peoples.

Course Learning Outcomes: (based on Cascadia Community College's course outcome guide for ANTH&206 Cultural Anthropology)

By the end of the quarter, students will:

Demonstrate their communication skills by:

- using fundamental cultural anthropology terms and concepts in proper context
- developing or improving both verbal and written communication skills
- clearly expressing thoughts about human culture and adaptive processes
- successfully completing team work both in-class and out-of-class

Demonstrate their critical thinking and problem solving skills by:

- recognizing key elements of human culture
- analyzing culture at various levels (individual, community, national) and from an anthropological perspective
- explaining anthropological theory and its application to human culture
- assessing the interaction between culture, biology and the environment
- identifying cultural traits and determining their function within their cultural context

Illustrate their level of cultural literacy by:

- demonstrating the ability to be culturally relative
- interrelating personal experiences and societal forces within the context of cultural anthropology
- demonstrating an understanding and respect for the diversity of human culture
- identifying ethnocentrism

Illustrate their level of information literacy by:

- using discipline-specific databases and utilizing a variety of library resources
- assessing anthropological information in general and scholarly sources
- using appropriate citation standards for anthropology
- exploring how anthropological knowledge is gained by practicing in a few of cultural anthropology's methodologies; e.g., real-world observations

Tori Saneda 7/7/10 1:53 PM

Comment: Stephanie, technology skills are embedded in these outcomes; do I need something explicit?

Required Texts/Materials:

Spradley, James and David W. McCurdy. 2009. *Conformity an Conflict: Readings in Cultural Anthropology*, 13th edition. Upper Saddle River, NJ: Pearson. ISBN: 9780205664610

- Available as an e-text from CourseSmart for \$25.85. Visit <http://www.coursesmart.com/020566461X/?a=1773944> (note: downloadable version available)
- NOTE: At the end of the syllabus is a list of other e-texts available at under a cost of \$30 for cultural anthropology

Online readings/videos

Minimum Technical Skills Required:

Technical:

To succeed in an enhanced, online or hybrid class, you should have:

- Access to a computer (at home, school, or work) that you can use for extended periods of time. This should preferably be in a quiet environment so you can concentrate.
- Broadband internet access (cable, modem, DSL, or other high speed)
- Firefox 3.0 or later or Internet Explorer 7 or later. Safari and Chrome are not compatible with ANGEL
- Permissions/ability to install plug-ins or class software (e.g. Adobe Reader or Flash)
- Highly recommended: up-to-date anti-virus software
- Highly recommended: review the System Check nugget on the ANGEL home page

Skills:

To succeed in an enhanced, online or hybrid class, you should have the ability to:

- Navigate web sites, including downloading and reading files from web sites
- Download and install software or plug-ins such as Adobe Reader or Flash
- Use e-mail, including attaching and downloading documents/files from e-mails
- Save files in commonly used word processing formats (.doc, .docx, .rtf)
- Copy and paste text and other items on a computer
- Save and retrieve documents and files on your computer
- Locate information on the internet using search engines

Description of Assignments/Assessments:

Assignment	Points
Reading Ethnography	80
Team Exam	75

Belief System Discussion	80
Ethnography & Ethnology	90
Final Essay	80
Sustaining Indigenous Cultures	100
Participation	150
Total points for course	655

Reading Ethnography:

What is it? This assignment has two parts. In the first part, each student will search the Internet for definitions of several key anthropological concepts. Definitions will be synthesized into the student's own words. Web sites used for the assignment will be evaluated using the CARS rubric. For the second part, each student will locate an ethnography in the campus library. Some class time will be used to show students how to search for ethnographies in the library catalog. Students will analyze both the ethnography and a behavior highlighted within the ethnography using a specific set of questions. Students will also determine whether or not the key anthropological concepts defined in Part I are evident in the ethnography.

Where do I find it? Complete assignment instructions can be found on ANGEL under Lessons > Assignments.

How do I submit it? This assignment will be turned in on ANGEL.

Team Exam:

What is it? For the team exam, students will work with their team for the Sustaining Indigenous Cultures assignment (see below) to complete a midterm essay exam.

Where do I find it? Instructions and exam questions will be handed out in class on the day of the exam.

How do I submit it? Completed exams will be turned in at the end of class on the day of the exam.

Belief System Discussion:

What is it? For this assignment, each student will choose one belief system to research and discuss in class. A series of questions to answer through research are provided in the complete instructions. Answers to questions must be completed by the day of the in-class discussion. On that day, students will be divided into small discussion groups. On the completion of discussion, each student will complete a self-evaluation of their discussion participation and answer four questions about the discussion.

Where do I find it? Complete assignment instructions are on ANGEL under Lessons > Assignments. A sign-up sheet for choosing a belief system to research will be passed out in class.

How do I submit it? Answers to the research questions, self-evaluation, and answers to the discussion questions are due in class on the day of the discussion.

Ethnography & Ethnology:

What is it? Students will conduct ethnographic observations on an activity of their choice. Students will pair up to do a cross-cultural evaluation. Each student will write a report describing and analyzing their findings.

Where do I find it? Complete assignment instructions are on ANGEL under Lessons > Assignments. Some time will be taken in class for students to find a partner for the ethnology portion of the assignment.

How do I submit it? This assignment will be turned in on ANGEL.

Final Essay:

What is it? Each student will write a 1500 word essay describing and analyzing one or two aspects of their idiosyncratic culture using what they have learned over the quarter. This essay takes the place of a final exam.

Where do I find it? Complete assignment instructions are on ANGEL under Lessons > Assignments.

How do I submit it? This assignment will be turned in on ANGEL.

Sustaining Indigenous Cultures (team project):

What is it? In small teams, students will choose an indigenous culture on which to research and present. The main focus of the research will be on the effects of development on the culture and what the group is doing to try to sustain their culture. Each team will create a Works Cited. Each team member will an evaluation of each team member's contribution, including their own, along with a reflection.

Where do I find it? Complete assignment instructions are on ANGEL under Lessons > Assignments. Team assignments will be handled by the instructor based on student answers to the questionnaire handed out in class.

How do I submit it? Presentations will be given during the last week of class. Works Cited, reflection, and team member evaluation will be turned in on ANGEL.

Participation:

Participation points are earned by taking part in class discussion, both in-class and online, by asking and answering questions during class, and through in-class activities.

Non-graded Assessments:

Periodically during the quarter, students will be asked to complete short self-assessments for in-class participation. Students may also be asked to complete one-minute papers or other types of recaps to ascertain comprehension of critical material.

Grading: I will try to grade all assignments within one week of submission; however, because I grade specifically to the outcomes, it may take me longer than one week. All grade rubrics with feedback will be returned to students via ANGEL email.

Course Grades Policy:

Grades: Everyone starts out with a 4.0 in this class. It is up to you whether or not you keep your 4.0. You are responsible for your own learning and for improving your learning and self-assessment skills. My feedback will focus on identifying your strengths and weaknesses of your work and helping you identify areas for improvement. I view learning as a collaborative process and encourage you to meet with me if you have concerns about your standing in the class.

% of Points	Grade	% of Points	Grade	% of Points	Grade
95-100	4.0/A	82	2.7/B-	70	1.5/C-
94	3.9/A-	81	2.6/B-	69	1.4/D+
93	3.8/A-	80	2.5/B-	68	1.3/D+
92	3.7/A-	79	2.4/C+	67	1.2/D+
91	3.6/A-	78	2.3/C+	66	1.1/D
90	3.5/A-	77	2.2/C+	65	1.0/D
89	3.4/B+	76	2.1/C	64	0.9/D
88	3.3/B+	75	2.0/C	63	0.8/D-
87	3.2/B+	74	1.9/C	62	0.8/D-
86	3.1/B	73	1.8/C-	61	0.8/D-
85	3.0/B	72	1.7/C-	60	0.7/D-
84	2.9/B	71	1.6/C-	0-59	0.0/F
83	2.8/B				

Course Policies:

Classroom and course expectations: Courtesy and respect is expected of all students. This includes but is not limited to:

- Punctuality*
- Turning off your dell phone (if it rings, I reserve the right to answer it for you)
- Careful listening, including not interrupting others
- No personal conversations during class, especially during student presentations
- Not doing other work during class
- Being prepared
- Active participation in class
- Turning assignments in on time
- Openness to others' opinions

- Quiet eating
- Asking permission to record a class or bring a guest
- Letting the instructor know if you have to leave class early
- Laptops are permitted during class for taking notes or looking up information for ANTH&206 only. Abuse of the laptop policy will result in loss of laptop use for ALL students in the class

* I realize that sometimes things happen that will make you late for class; however, chronic tardiness will negatively impact your grade as will repeat absences since you will miss material.

If you must miss class due to illness of yourself or an immediate family member, please notify me before class if possible or as soon as possible thereafter.

Disability support services: Cascadia Community College provides accommodations and services to qualified students with documented disabilities through Disability Support Services (DSS). Cascadia is committed to ensuring that qualified students with documented disabilities are provided equal opportunity to participate in all educational programs, campus services and activities available at the college. The goal is to fully comply with the Americans with Disabilities Act, Section 504 of the Rehabilitation Act and Washington State Law (Core Services Act). For more information or to request accommodations, please contact Disability Support Services, 425-352-8860 or 425-352-8399 (TTY). If you have or suspect that you have a disability and need an accommodation please contact the front office in Kodiak Corner at 425-352-8383 to make an appointment with the Disability Support Services. Services and Accommodations through DSS are not retroactive.

Learning Assistance Options: The Open Learning Center provides a place for students to receive assistance with technology that support class assignments. Trained assistants are available to help students individually or in small groups. The OLC is located in CC2-060.

The Math and Writing Center provides trained staff to assist students with math courses and provide opportunities to improve writing, reading, and study skills. Students can receive tutorial assistance on a walk-in basis with assignments for classes in which they are enrolled. The Math & Writing Center is located in CC2-080 / phone 425-352-8243.

Course Calendar (11 week quarter)

SM: <i>Conformity & Conflict</i> (# refers to article number, not chapter)
