ACADEMIC PROJECTS

- **“Agriculture Insurance Information System”** (Autumn 2007) **Course:** Agriculture Information Systems (AIS), **Guide:** Prof. Sanjay Chaudhury (Team size: 2).
 - This is a working model of a novel insurance approach for the rural areas. This Model explains how best the 'Claims' be sought by the insurers and insured. **Tools Used:** Eclipse, IBM's Rational Rose
- **e-Learning Content on 'Agriculture Insurance' (Winter 2008) Course: Content Management and Development**, Guide: Asst Prof. Vikram Sorathiya (Team size: 1)
 - An e-Learning Content Management System by means of which various aspects on Agriculture Insurance could be taught to farmers, interest groups and academia. Tools Used: Plone, eXe, Reload

Summer Internship

“Evaluation of “Social, Financial and Economical Transaction Costs”

Attached to: National Institute of Smart Governance (NISG)

As a part of my summer internship, I have been assigned to evaluate the Social, Financial and Economic Transaction Cost related to 'e-krishi', an ICT initiative by Kerala State IT Mission (KSITM). I, as a part of a four man team have done an extensive field work in collecting raw data and analyzing the same using SPSS software.

Academic Internship (Graduation)

Rural Agricultural Work Experience Program (RAWEP) (Summer 2007)

Attached to: ICAR sponsored KVK, Gaddipalli Village, Nalgonda District, Andhra Pradesh

- I have worked in the village Errakunta of Nalgonda District, Andhra Pradesh, which involved identification of issues concerning the basic institutions of the village and finding suitable alternate solutions to them. Also included were studying the Economic, Social and Cultural issues prevailing in the village which contributed directly or indirectly to Agriculture in the area

Elective Courses

IIInd Semester: Supply Chain Management

Content Development and Management.

IIIrd Semester: Development using ICT

Project Management.
